Cookie Policy

Our website uses cookies to distinguish you from other users of our website. This helps us to provide you with a good experience when you browse our website and also allows us to improve our site.

A cookie is a small file of letters and numbers that we store on your browser or the hard drive of your computer if you agree. Cookies contain information that is transferred to your computer's hard drive.

We use the following types of cookies:
- Strictly necessary cookies. These are cookies that are required for the operation of our website. The wordpress_test_cookie set out below is an example of a strictly necessary cookie. This cookie is necessary for us to check if your browser has cookies enabled, which is required for admin panel login functionality.
- Analytical or performance cookies. These allow us to recognise and count the number of visitors and to see how visitors move around our website when they are using it. This helps us to improve the way our website works, for example, by ensuring that users are finding what they are looking for easily.
- Functionality cookies. These are used to recognise you when you return to our website. This enables us to provide a better user experience. For example, the cookie_notice_accepted cookie stores a cookie to check if you have previously consented so that you do not need to provide or reject consent each time that you visit our website.

You can find more information about the individual cookies we use and the purposes for which we use them in the table below:

Cookie Name	Purpose
_ga	To store and count pageviews for statistics. We this data for general website traffic analysis, including: • See how our users are finding the website (directly, referrals from other websites/platforms). • See how long our users are spending on the website. • See how many visits our website receives. • Compare the number of unique users to returning users. Analytical or performance Deleted after 730 days
